

Every MO member with a mailing address will receive a letter announcing the new NCSEA software system and online member portal, along with their log-in information (user name is their email address). Members will now be able to access and edit their information online, including NCSEA communication preferences, and will be able to see all of the events and products purchased from NCSEA in one place.

The new portal can be accessed through the Member Log-In area on each page of the NCSEA website, by registering for an NCSEA event, or by clicking on a member-only resource.

Many of the reports, resources and manuals that have been public on the NCSEA website will now be member-only resources, including:

- * Electronic issues of STRUCTURE magazine
- * NCSEA committee reports and information
- * Technical documents
- * Member discount links to ICC publications
- * Manuals and guides, including the SEER Manual, High School Outreach Manual, and Young Member Group Start-Up Guide.

The new system will provide you with one place for all of your NCSEA information and will increase the value of your Member Organization membership by allowing access to member-only resources.

If you have questions about the new system, please don't hesitate to call the NCSEA office or email Susan Cross, NCSEA Associate Executive Director, scross@ncsea.com<<mailto:scross@ncsea.com>>.
